PROFILE

Final-year International Business student at ESEI International Business School Barcelona, starting 5 October 2026, seeking a tech internship with a particular interest in applied AI. Comfortable both customer-facing and behind the scenes — combines hands-on experience in high-pressure hospitality work, family business operations, and independent technical projects (robotics, 3D modelling, game development). Strong communicator, comfortable leading others, and disciplined in balancing academics, work, and sport.

WORK EXPERIENCE

Terrace Lead / Runner — COBRA, Antwerp

2022 – Present

- Started as a runner at COBRA; over four years grew with the business as it expanded from one to two restaurant locations.
- Promoted with a pay increase; now take customer orders and show new team members the ropes while working alongside them.
- Independently run the terrace (~60 covers) as part of a team-wide service of up to ~120 covers per shift, directing a colleague on table turnover and stock — working under sustained pressure while keeping service pace high.

Team Support (Materials & Site Work) — Family real estate, Antwerp

Few weekends/month

- Supported my father's real estate business across two job sites (~6 occasions this year), working alongside his teams.
- Independently sourced and transported materials for the team on 3 occasions, and helped build a cement patio from start to finish over 2 days.

Creative Support — Family fashion brand, Antwerp

Few weekends/month

- Designed prints for my mother's fashion brand using 3D modelling skills; designs were produced and sold.
- Supported day-to-day operations — stock handling and moving inventory — on an informal, as-needed basis.

EDUCATION

Bachelor's in International Business — ESEI International Business School, Barcelona 2024 – 2027 (expected)

- Entering final year on 5 October 2026.

International Baccalaureate Diploma Programme — Antwerp International School

2022 – 2024

- Higher Level: English B, Economics, Business Management.
- Standard Level: Mathematics (Applications & Interpretation), Environmental Systems & Societies, Dutch A Language & Literature.
- Extended Essay in Business Management. Examinations: May 2024.

International Baccalaureate Middle Years Programme — Antwerp International School

2018 – 2022

- Best subjects: Physical & Health Education, Personal Project, English Language Acquisition, Mathematics.

ADDITIONAL TRAINING

Claude AI Training for Professionals — Expert Academy (trainer: Dieter Vanden Heede)

16 June 2026

- Business-focused workshop on practical use of Claude AI — covering AI-driven chatbots and experimenting with image recognition and text generation beyond basic prompting. Reinforces interest in pursuing a tech-focused internship.

LANGUAGES

- Dutch — Native
- English — Native level

SKILLS

- Creativity & problem-solving — independent technical projects (RC plane design and build, 3D modelling/printing, robotics) and co-developed an online multiplayer game.
- Applied AI — hands-on training in practical use of Claude AI for business contexts.
- Attention to detail — spatial awareness and precision developed through mechanical and design projects.

OTHER INTERESTS

- Marathon runner & gym — trained and tracked nutrition daily to complete a marathon; builds discipline and focus.
- English boxing (4 years, Antwerp) — training toward competition level.
- 3D modelling, 3D printing & robotics — independent projects including a scratch-built RC plane.
